

Ten Norwalk 8th graders were recently featured in an article in the winter edition of the Connecticut Association for the Gifted newsletter. These students are:

Taylor Stokes

Andre Rodriguez

Mikayla Mason

Winchelle Jean-Pierre

Akua Maat

Darius Colson

Edwin Rosales

Ana Galazrza

Will Joyner

Isabella Serrano

The article was entitled “Lessons Learned: Conversations with Gifted Minority Youth in Norwalk” (written by Joan Glass) and featured interviews with all ten students representing all four Norwalk middle schools. All students interviewed participate in the Academically Talented program and were selected by their principals and teachers as being models of excellence and character. These students should be proud of their many accomplishments! Copies of the newsletter may be purchased through www.ctgifted.org.
